

## SEMI-ANNUAL AIDS RELATED EXPENDITURES REPORT JULY – DECEMBER 2000

MEDI-CAL REPORT DATE: January 31, 2001  
Internet Homepage - <http://www.dhs.ca.gov/mcss>

Included is data from Medi-Cal Fee-For Service claims paid during the 6-month report period for persons believed to have HIV-related diseases. Our selection criteria include International Classification of Disease (ICD-9) diagnosis code 042 or a prescription claim for drugs commonly used for the treatment of AIDS. Claims for persons who have met any of the selection criteria since July 1994 are selected and summarized in this report.

Please note that as more Medi-Cal beneficiaries are moved into managed care arrangements, AIDS related expenditures become increasingly understated. This is due to our current data systems limitations in capturing expenses attributable to persons with HIV infection in managed care.

As requested, information is displayed by age group. However, age is calculated at time of service rather time of infection, as this is all we have available.

Please direct inquiries related to data in this report to Jan Rains at (916) 657-0920  
or e-mail to [JRANS@DHS.CA.GOV](mailto:JRANS@DHS.CA.GOV).
